# CASAMBI

With Casambi enabled light fixtures it is possible to use regular power or wall switches for dimming and no extra dimmers are needed. Here are three simple steps to create a nice ambience for your home.

1. To start the dimming process, just quickly switch off and on the light fixture from the wall or power switch. After flicking the switch the dimming process will start.
2. Once the light has reached the desired brightness level just flick the power or wall switch quickly again, off and on, to save the current level as new default brightness for the light fixture.
3. It is always possible to change the default brightness by starting the dimming process over again.

To set the default brightness level back to maximum, just flick the power or wall switch off and on once and the dimming process will start again. When the brightness level reaches the maximum value it is set as a new default for the light fixture.

## ANALOG DIM , ON/OFF SWITCH

If you cut the lamp cable, the marking for +/- will disappear. Just try which side works. Choosing a wrong side does not harm the light.

## CASAMBI APP

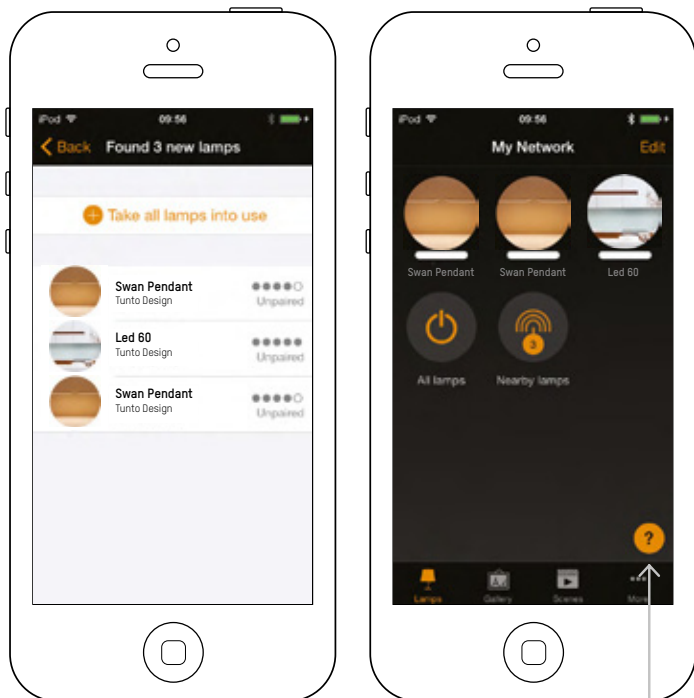

With Casambi you can control your LED lights to create just the right mood or ambience. Available for Tunto Led28 , Led40 , Led60 and Led40 Modular and Swan pendant.

Supported devices: iPhone 4S, iPhone 5, iPhone 5S, iPhone 5C, iPhone 6, iPhone 6+, 3rd generation iPad, 4th generation iPad, iPad Air, iPad mini, 5th generation iPod touch and Adroid 4.4 or Later with Bluetooth 4.0 support.

## FIRST TIME USE

Casambi app is easy to take into use. Follow these simple steps.

1. Download the app from Apple App Store or Google Play Store.
2. Turn on your Casambi enabled luminaires.
3. Open the app.
4. Casambi app will automatically find all Casambi enabled luminaires that are switched on.
5. Tap on the 'Take all lamps into use'.
6. Casambi app will automatically add all luminaires to one network and open the 'Lamps' tab.

If further help is needed there are question marks on every page of the app to help in using it. FAQ can be found from the More tab under Help.

## GALLERY

The Gallery in Casambi app is the most intuitive way of controlling your luminaires. Take a picture of the room where your luminaires are and place lamp controls over them in the picture.

1. Add a photo of your room to Casambi Gallery by tapping 'Edit' and after that the '+' sign.
2. Add lamp controls to the picture. Tap on the '+' sign and select a lamp control that you want to add to the picture.
3. When you have added controls over all the luminaires in the picture tap 'Done'.
4. Control your luminaires visually from the picture. No need to guess which luminaire is which.
